THOMPSON & TICE,

WOULD announce to the citizens of Janesville and vicinity, that they have bought out the interest of Mr. London and have refitted their Rooms for the comfort and convenience of their visitors, where they still continue to take

"Pictures what is Pictures."

They have, during the past year, taken 2,735 likenesses, and out of this number but 59 were returned. Those they took over, free of charge, and made all satisfactory. They invite every one who wish to get a good likeness of themselves or friends, to give them a call, their

Ambrotypes,

surpass anything in the State. They have taken the premium two successive years, and as they are now better prepared to take likenesses, they still intend to make better Ambrotypes, Photographs and Daguerreotypes than was ever seen in Janesville, and don't except any East or West. They wish every one that would like to see PICTURES, to visit their rooms and take a look at their specimens, as they can show the best collection of pictures in the West. Ambrotypes from a full life-size down to the smallest locket.

PHOTOGRAPHS,

Plain or colored, in a style that cannot be surpassed. We return our sincere thanks to the public for the past year's patronage, and would solicit a continuance of the same.

Instructions given in the art on reasonable terms.

OF THE

OF

Prepared from the
Formula of Dr. J. Francis Churchill,
for the treatment of
Consumption.

"WHAT I am anxious for, is that the Hypophosphites should be brought, *as speedily as possible*, into universal use, as I know that they will prove as sure a remedy in Consumption as quinine in intermittent fever, but also as effectual a preventative as vaccination in small pox.

"The action of the Hypophosphite, with iron for the base, *would probably be dangerous*, and certainly could not be repeated as often as necessary."—[From Dr. Churchill's Letters.

He is also supplying his Quarry with Derricks to facilitate the hauling and loading large stone, and is fitting up expensive wagons, carts and trucks, rigged with the most approved appliances for moving and delivering dimension stone of any size, from two to thirty feet square, and from six to twenty inches thick, or any required length up to one hundred feet, to any part of the city or on board of the cars.

Republican State Convention.

A Republican State Convention will be held at the city of Madison, in the Assembly Hall of the Capitol, on Wednesday, the 31st day of August next, at 12 o'clock M., for the purpose of nominating candidates for state officers to be supported by the party at the ensuing general election; and to transact any other business that may properly come before it.

As the subject of selecting delegates to the next National Convention may be entertained and acted upon by the Convention, it is suggested that the people in their primary caucuses, and the district conventions, make such expression as will intimate to their delegates and the State Convention, the general sentiment of the state on that subject.

Each Assembly District will be entitled to two delegates in the convention.

It is recommended that district conventions for the selection of delegates be held throughout the state, on or before the 20th day of August, and that committees make early calls for that purpose; and it is especially urged that every district be duly represented in the convention.

A Refreshing Shower.

We do not, of course, suppose that any of our readers need be told there was a refreshing shower yesterday. Everybody had been looking for it, hoping for it, praying for it. *And it did come.* The furnace-like atmosphere was cooled, and the flagging energies of humanity revived. As we write, somebody near us is keeping music with a fiddle, (probably from an inability to give expression to his gratification in a more expressive manner,) to the falling rain. Long before the grateful change took place here, dark clouds had piled up in every direction about us, and the welcome blessing must have been very generally distributed.

Now, with a cool air, and a good breeze, let us hope that the danger which threatened the crops is averted, and a plentiful harvest reward the labor of the farmer, while health and comfort will supplant languor of mind and body and oppressive heat.

A Ruined Field.—The following incident from the Bloomington, (Ill.) Pantagraph may possibly find a parallel in this county, and illustrates the folly that cries out ruin on the first approach of a seeming danger: "K. H. Fell, Esq., has brought us a bunch of Indiana white wheat, from his farm two and a half miles east of town. The heads are long and very heavy, and the grains plump and large. In the spring *a number of the neighbors* counselled Mr. F. to plow this field up, but he determined to let it stand and try it anyhow. The result is that out of the field of sixty acres, some fifty acres will be cut, and will yield four hundred or five hundred bushels. Not much of a yield, but considerably better than *nothing, particularly when it is such* a heavy and fine looking berry."

Latest from Europe.—The steamships Wesser and Borussia, which reached New York on Saturday, bring several items of interest in the war in Italy. The most important of these are —the agreement of the German Diet to the proposition of Prussia to place a corps of observation on the Rhine; the retreat of the Austrians across the Mincio and their concentration around Verona, the north-east corner of the quadrangle; the manoeuvre of Garibaldi to close the valley of the Adigo and cut off the Austrian communication with the Tyrol; a circular from the Pope and his Cardinals, expressing confidence in the Emperor of the French; a notification on the part of Prussia that her recent war preparations need not give uneasiness to France; and finally, the statement that another army division has moved from Lyons to reinforce the French in Italy, and that a vast quantity of projectiles had moved in the same direction, probably destined for the reduction of Mantua, Peschiera and Verona.

The Plains of Lombardy—A Battle Field for Centuries.—The plains of Lombardy, whereon the battle of the Emperors is now being waged, have been the theatre of fierce ravages and bloody wars, long before Marengo, *Lodi, Arcola* or *Montebello* had added to the glory of the first Napoleon—these fertile plains attracted the attention of the savage Teutons. From the time that Alboin descended from the Alps with the entire nation of the Lombards, five centuries after the christian era, to the present when they tremble beneath the tramp of contending battalions, and are canopied with the dun smoke of battle, they have been the arena of the most savage and bloody conflicts. Nearly eight hundred years ago, Frederic Barbarossa descended upon them from the Alps, at the request of the persecuted citizens of Lodi, and opened, on the plains of Roncaglia, near the river Po, the feudal assembly of the Lombard states, to hear their grievances. Having heard them, he dissolved their diet, and swept with fire and sword the surrounding country, laid seige to Milan, and having taken it, razed it to its foundations, so that scarcely one stone was left upon another, *then made his* triumphal entry into Pavia, and there received the crown of Lombardy. Then came the domestic strife of the middle ages, when every house was a fortress, and every village a fortified town, the wars of League, the wars of Bonaparte, bloody and severe, and then the struggle of 1848 between Austria and Sardinia. And now again the red flag of slaughter is waving, and the familiar names of Cono, Pavia, Vercelli, Novara and Milan, are in men's mouths as the actual or expected scenes of fearfully bloody struggles. Who can say but what, like another Barbarossa, but without his cruelty and injustice, the Emperor may yet assemble on the plains of Roncaglia, the Lombard towns, to hear their grievances and redress their wrongs.

Great Prices for Coins.—A great sale of coins by auction has recently taken place in London, and enormous prices were [illegible] in. Three Anglo-Saxon pennies of [illegible] obtained. were sold in one lot for [illegible] different types Alfred's time were [illegible] £150. Pennies of more than o[illegible] sold at from $50 to $80 of Hen[illegible] penny of great rarity brought [illegible] hundred dollars. A gold penny [illegible] the Third, of the highest rarity, sold upwards of six hundred dollars. Among the coins struck for America may be mentioned the Lord Baltimore penny, said to be unique, $362; a New England half penny, $75; the fifty shilling piece of Oliver Cromwell, $225; gold five shilling pieces of Charles the Second, $146. The competition was spirited throughout the sale, and the prices considered high, but the specimens, generally speaking, were rare and of high quality.

Thirty eight clerks in the New York Custom House have had their salaries increased $100 to $400 a year, making an aggregate increase of $7,000, to take effect from the 30th ult.—Had the post office clerks received such an increase of pay, it would have been more just.—They are the worst payed operators in the United States. They work twelve and fifteen hours a day, for salaries varying from $500 to $760.

NEW YORK, July 16.

ST. LOUIS, July 16.

INDIAN NEWS.—The New Mexican mail, with dates from Santa Fe to the 27th, reached Independence this A. M. Large numbers of Camanche's and Kaw Indians were at Walnut Creek. The Kaws were endeavoring to form an alliance with the Camanches for the purpose of punishing the people at Council Grove for hanging two of their tribe a short time ago. Two companies of troops were at the crossing of the Arkansas, but they were not sufficient to hold the Indians in check, should they become hostile.

LOUISVILLE, July 16.

After several days of excessively hot weather, the thermometer ranging between 90 and 100 degrees, a thunder and lightning storm occurred yesterday afternoon, accompanied by a gale, prostrating trees and shrubs, and unroofing several buildings in the southern portion of the city. Nobody injured.

The daughter of John Rafferty, of Cincinnati, has been killed in trying to "do the Niagara feat" in a small way, over a porch in the second story of the house. The rope breaking, she was pitched over the banisters, and she received fatal injuries by the fall.

The Rockford Daily News learns that Constable Wm. Thompson is about to enter proceedings against the Michigan Southern road, on behalf of the children of his late sister, who was killed on the night of the dreadful railroad catastrophe.

all well invested for the benefit of policy holders, so that the profits of this vast sum pay a large proportion of the annual premiums. This unquestionably the very best Life company doing business in this state.

THE above are *First Class, justly popular, and prompt paying* Companies. They invite investigation into their condition and solicit business entirely upon their real merits. In point of solvency and reliability and honorable dealing, they have but *few equals, and no superiors.* They are founded upon the very best securities in the world—first class bonds and mortgages upon property in New York and Brooklyn—securities that have not, for the past ten years, depreciated below par, and are every way more reliable and permanent than railroad, bank, and other stocks, which are subject to the fluctuations of the market, and liable, *in times of panic,* as the experience of the past teaches, to become almost, if not entirely valueless. And while there are Companies entering the field of competition, well calculated to mislead by publishing *partial and one-sided* statements of their condition and without a cash surplus on hand sufficient to reinsure their outstanding risks, the above named companies always have and keep over and above their capital *twice* the amount, and in most instances *four* times, needed for the reinsurance of all their risks. With such a foundation, and with such a condition they claim the right, to look with confidence, to the public for liberal patronage.

Policies from one to five years issued on the most reasonable terms. All Losses promptly adjusted and paid by F. WHITAKER, Agent.

IN THE CITY!

I, last and in the advertisement of a Janesville merchant that the stock of the milliners of this city consists of "two or three dozen of articles picked up from 10th class houses in Chicago or Milwaukee."

Such an assertion is silly and ingenious, untrue. Mrs. O'Den does not purchase old fashioned auction bonnets *by the load* in New York, but procures them from first houses in Chicago, who keep *better* and *newer* goods than any New York Jobbers in Janesville ever had, and the ladies of Rock county can exercise a sound discretion, as they always have done, in the selection of their hats from those of their own sex, who can better consult their tastes than any *monopolizing Man Milliner* can do!

LOCAL DEPARTMENT.

Sons of Malta.

We are requested to state that a meeting of the members of this Order will be held at the usual place of meeting *this evening* (Tuesday) at 8 o'clock.

☞ Dr. Knapp, whose card will be found in another column, will be at the Hyatt House, Tuesday and Wednesday, July, 19th and 20th.

Wool.—The Whitewater Register says that Mr. A. S. Edgerton of Lima, Rock County, has a flock of 125 Spanish Merino sheep from Mr. H. Hemingway's stock, which this year sheared, on an average, five pounds three ounces of wool each. Thirty three of them sheared 228 pounds being six pounds and ten-elevenths of a pound each. We call this a good yield for a flock.

☞ We find in the Kenosha Telegraph the following notice of Madame Bosco, who is to give a couple of entertainments in this city this week: "Madame Bosco, the noted Magecieuno, performed in our city on Tuesday and Wednesday evenings to small but delighted audiences. She introduced many novel and surprising tricks, among which we may mention that of the Orange Tree, with its blossoms and ripened fruit. Madame Bosco in skill and dexterity, certainly rivals the noted Sig. Blitz."

The Excursion.—We learn that the Sons of Malta excursionists will leave Chicago, Thursday morning, at 9:15, and stop at the Hyatt House for dinner. They will then leave this city at 4:15 P. M.

Excursion to Beloit.—The excursion of the Sabbath School of the Baptist Church of this city will take place on Wednesday, the 20th inst. The school, its staff and patrons, wishing to accompany them, will meet at the Church at half past eight o'clock A. M., and the procession will form at 9:15, and with Estes' Cornet Band at the head, will march to the Galena depot, where arrangements have been made for a supply of passenger cars to take all who desire to go to Beloit. Train to start at 9:30 railroad time, and return at 4:30 P. M.—Fare for the trip 50 cents for each person except the scholars of the school.

Tickets can be procured of Dr. B. F. Pendleton, N. Batchelder, and C. Dearborn.

Good News.—The Watertown Democrat of the 14th, says that "during the past few days active preparations have been going on for laying the iron on the railroad between this city and the La Crosse Junction. We are informed that the work will be commenced from both sides and the gang will rapidly advance toward each other, until they meet somewhere near the middle of the section. For a week iron has been coming to this city over the Watertown road, and there is now here more than eight hundred tons, which is all that will be needed. Enough iron is also at the other end of the line, so that all is in readiness. As Messrs C. C. Campbell & Co. will have as large force on as can be profitably employed, the days will not be many before Oshkosh and Watertown will be bound together by the iron bonds. No track could possibly be in a better condition for the ties and rails than this; being probably the best grade in the state, the ballasting can be very easily done. It has had plenty of time to settle and become permanent." Again the Democrat says—"The work of grading the line of railroad between this city and Janesville is progressing with amazing rapidity. On every section large numbers of men are regularly employed and daily additions are made to the force already engaged. There must at least be two thousand laborers scattered along the track, and as they are all strong and vigorous men they make the dirt fly as it never flew before. From the Junction in this city to the point where the line crosses Rock River, the grading has already been completed, and the whole party are swiftly moving southward.

Assessments.—The assessment of Kenosha county, is $3,288,243; Walworth county, $6,516,290 real, and $880,463 personal property. The village of Whitewater is $106,330 real, and $180, 103 personal.

Lecture.—Mrs. Stowe, a celebrated trance speaker, will lecture at Young America Hall, Tuesday and Wednesday evenings, 19th and 20th inst., at 7½ o'clock. Admittance 10 cts., but no one refused admittance because of an empty pocket. [Com.

The Chicago Press and Tribune is responsible for the following:

A Reasonable Woman.—A day or two since a lady of unusual amplitude of crinoline got into one of our street railroad cars. She spread her skirts over the adjacent seats to the horror of the conductor, who calculated on a rush of passengers immediately. After arranging things, the lady called the conductor and said: "How many seats do you think I occupy?"—He was an unmarried man and did not care about exaggerating the matter, replied: "Three seats." With that the lady handed him fifteen cents, saying: "There's pay for [illegible] seats now don't let me be disturbed." And she was not.

Penitentiary Items. [illegible] at work on the walls of the Joliet penitentiary, attempted to escape on the 5th inst. Three of them were shot and captured, two of the being seriously wounded. The fourth escaped.

The next day a man was chased and captured as an escaped convict, on account of a suspicious *clanking* sound which accompanied his footsteps. He was found to be a returned Pike's Peaker, wearing a *Mexican spur*. His captors "caved" and "stood treat."—*Bloomington Pant.*

Daily Morning Gazette.

CITY OF JANESVILLE.

Wedn'sday Morning, July 20, 1859.

Republican State Convention.

A Republican State Convention will be held at the city of Madison, in the Assembly Hall of the Capitol, on Wednesday, the 31st day of August next, at 12 o'clock, M., for the purpose of nominating candidates for State officers to be supported by the party at the ensuing general election, and to transact any other business that may properly come before it.

As the subject of selecting delegates to the next National Convention may be entertained and acted upon by the Convention, it is suggested that the people in their primary caucuses, and the district conventions, make such expression as will intimate to their delegates and the State Convention, the general sentiment of the state on that subject.

Each Assembly District will be entitled to two delegates in the convention.

It is recommended that district conventions for the selection of delegates be held throughout the state, on or before the 20th day of August, and that committees make early calls for that purpose; and it is especially urged that every district be duly represented in the convention.

The Foreign News.

The telegraph brings us a very full synopsis of the news by the steamship Indian, which is two days later than the advices by the Weser and Borussia. The news from the seat of war may be thus briefly summed up: No further battles had occurred, and it was thought that the Austrians would not venture to accept another battle in the present demoralized condition of their army. Peschiera was under a vigorous siege by the Sardinians, while the French troops, increased by the army corps of Prince Napoleon, were threatening Verona, into which place the main body of the Austrian army had retreated. The belligerent Emperors had made an exchange of prisoners. The French and Prussian armies of observation were about moving on the frontiers of the Rhine. There was a great scarcity of provisions in the Italian villages occupied by the *Allies*. *Four Russian corps* have been placed on a war footing, and it was rumored at Vienna that Turkey would turn against Austria.

The commercial news is to the effect that the British markets continued dull, and breadstuffs had declined slightly. The weather being favorable for the crops, holders were pressing on the markets.

LATER.—We have one day's later news by the steamship City of Washington.—Another battle was expected on the Adige.
—*Milwaukee Sentinel.*

Slaves are Not Property.

The Madison Patriot has, of late, manifested much interest in the opinions of the Janesville Gazette in relation to slavery, the rendition of fugitives from labor, and the powers of the United States Supreme Court. We have been obliged to our friend for his interest in our behalf, especially as our heterodox views have caused the editor to pore over and publish much of that indigestible stuff found in the hardest and dryest reading on the face of the earth—we mean the opinions of the judges of our U. S. Court. It is a kind of literature in which we have no delight, and moreover we do not care a *red* what one of those judges says on the subjects named. We look into the constitution and decide for ourselves, as every citizen may do, if he pleases. Judges do not hold a patent right for all common sense as applied to constitutions and laws, and no man has a right to submit his conscience into their keeping. Each citizen is bound to decide for himself all legal questions which are mixed up in any way with politics. He cannot delegate them to another man, no more than Martin Luther could submit his theological opinions to the decision of a Pope. In fact, the parallel between our modern Supreme Court and the Church of Rome, in the days of the Reformation, is easy to be traced. One similarity may be especially noted: In that time the adherents of the church claimed for it infallibility, and denounced as heretics every[illegible] who doubted it. In these days [illegible] whoever doubts the infallibility of Judge Taney is called a traitor, rebel, or nullifier. Our brother of the Madison Patriot is especially gifted in the use of these terms, and we doubt not, if he had lived in the time of Luther, he would have piled the faggots high up around the bodies of the Reformers. But fortunately for us more liberal ideas now rule the minds of a majority of civilized men, and truth and error are left free, at least here in the north, to combat each other, without the interference of bigoted laws.

The Madison Patriot having quoted whole columns of these dusty decisions at us from several generations of United States Judges, and claimed it all to be law, which we were, according to its opinion, bound to obey, if we wished to be considered as a good citizen, we thereupon held our peace, and resolved for the future to be careful how we stirred up our learned cotemporary, especially during this hot term.

It seems, however, that the Patriot cannot keep still on this subject, and for want of an opponent in the republican ranks, "pitches into" the Appleton Crescent, one *of the lights of democracy* "up north." Now, it is not possible for anybody to hold opinions directly antagonistical to that journal without taking his position in the republican camp and using republican artillery to fire at his opponent. Accordingly in the very article aimed at the Crescent the Patriot says:

"SLAVES ARE NOT PROPERTY. * * * The right of property in the person [of a slave] is no more recognized BY LAW than it is in the case of a minor or ward. It [slavery] is exclusively the creature of a *local* law—a *special* privilege, a chartered right, (!) the exercise of which is *limited* to the jurisdiction which granted it."

That is very good republican doctrine, but we regret to inform the editor of the Patriot that he is a very big traitor, and a bloody minded nullifier for saying it. Does he not know that that high and solemn tribunal, the United States Court, through its sacred mouth-piece, Judge Taney, has declared that slaves ARE property? On pages 451-2 of Howard's report of the Dred Scott decision, Judge Taney says: 'The right of property in a slave is distinctly and expressly affirmed in the constitution. * * * No word can be found in the constitution which gives congress a greater power over slave property, *or which entitles property of that kind to less protection than property of any other description.*'

We do not quote this because we have the least faith in it, or respect for its author, but the Patriot, having railed at us for denying that Judge Taney's decisions are *law*, we should like to see that paper reconcile its opinion above quoted with that of a majority of the court. Do you still believe, in defiance of this opinion, that slaves are *not* property? That slavery depends upon *local* law, when it is recognized, according to Taney, by the constitution, which is the paramount law of the land, in *all* the states and territories of the Union, and that it is entitled to as much protection as property of any other description? Let us hear from you *at length*, some cool day, on these points.

The Executive Committee in presenting the foregoing premium list to the members of the society, and to the people of Rock and the adjoining counties, desire to say that they expect the Fair of 1859 to evidence an improvement on all previous fairs commensurate with the growth and increase in population and wealth of the banner county of Wisconsin. We are this year brought into competition somewhat with the United States Fair, the State Fair of Illinois, the Fair of Walworth county, Wis., and the Fair of Winnebago county, Illinois. If the crops justify their present promise, and our citizens do what they may and ought to do, our society will maintain its former position as the best county organization of the West, and not always, nor in all respects, second to the state society. We have but one fair each year, and it is the only time and place when the people of the whole county are enabled to come together on common ground, for a common purpose—for the exhibition and improvement of what they are, and what they produce and manufacture. We appeal to the farmers and mechanics of Rock county to contribute to their own pleasure and profit by meeting the just expectations of the committee.

Mowing Machine Trial.

JANESVILLE, JULY 18, 1859.

MR EDITOR:—In response to a call for a public trial of mowing machines made by the agent of J. H. Manney's improved combined machine, three machines entered my field to-day, for the trial, viz: J. H. Manney's, Daniel Clow's, and Palmer & Williams.

The Clow machine drew off before it had gone one round. The other two did good work. *On the first round I did say and think* the Manney machine did the best work, but when Palmer and Williams' machine was adjusted to cut lower, I do not think it did. The the draft of the two machines appeared to be about equal, although Manney's was drawn by a *good pair of draft horses*. The Palmer & Williams by a *light pair of four year old colts one of which had not done a days' work this season*. The work was interrupted by a heavy shower, after which and while the grass was wet as it could well be, the Palmer & Williams machine cut beautifully, on the slowest walk without clogging at all. It seems impossible to clog the Palmer & Williams' machine.

JAMES M. LEARNED.

The Palmer & Williams machine referred to above has been purchased by Mr. Learned. It was made at the *old established factory at Brockport, N. Y.*

Persons in Wisconsin purchasing Palmer & Williams' machines from any other factory (no matter how *miserably* they are made) will be held responsible for Patent fees and damages.

REAPERS AND MOWERS.—As the harvest approaches, there is a good deal of interest manifested in the different kinds of reapers and mowers offered to the agriculturalist. Among those labor-saving and indispensable aids, Manny's Reaper and Mower, manufactured at Rockford, Ills., has long had a high reputation. Within the past year, we learn some changes have been made in its construction, by which the draft has been lessened, and it is now worked with less power than formerly. During a recent trial in this vicinity, we are told that it worked with a draft of 300 lbs. As a reaper, it is claimed to be equal to any other in use, while as a mower its friends assert it is the best in use. It cuts close to the ground, and never clogs in the thickest grass. Its merits, as a mower, we are informed, was fully tested in the trial last Monday on the farm of J. M. Leonard, near this city. F. S. Barrows, of the Agricultural Seed Store, has the agency for this machine, to whom applications for its purchase may be made, and from whom more full information may be obtained.

NEW ADVERTISEMENTS.

CLAIRVOYANCE!

Dr. LATHROP, of NEW YORK,

WOULD respectfully inform the inhabitants of Janesville and vicinity, that he has opened an office at his residence, for the purpose of treating diseases on the Clairvoyant principle. Through precision, I am enabled to cure many cases that are beyond the reach of medicines. I have had 12 years experience in this manner of treating diseases attended with great success in New York and Syracuse. I had a number of years medical practice before I became clairvoyant. Invalids suffering from old chronic difficulties, will do well to give me a call. Acute diseases treated with new remedies discovered while in the superior state; these are especially applicable in fevers and sudden ill[illegible] attacks, which readily yield to the harmonizing influence of these medicines.

☞ Residence on Bluff street, near Jackson. First house west and nearly opposite the Episcopal church. The best of references can be given.

THE above are *First Class, justly popular, and prompt paying* Companies. They invite investigation into their condition and solicit business entirely upon their real merits. In point of solvency and reliability and honorable dealing, they have but *few equals, and no superiors*. They are founded upon the very best securities in the world—first class bonds and mortgages upon property in New York and Brooklyn—securities that have not, for the past ten years, depreciated below par, and are every way more reliable and permanent than railroad, bank, and other stocks, which are subject to the fluctuations of the market, and liable, *in times of panic*, as the experience of the past teaches, to become almost, if not entirely valueless. And while there are Companies entering the field of competition, well calculated to mislead by publishing *partial and one-sided* statements of their condition, and without a cash surplus on hand sufficient to reinsure their outstanding risks, the above named companies always have and keep over and above their capital *twice* the amount, and in most instances *four* times, needed for the reinsurance of all their risks. With such a foundation, and with such a condition, they claim the right, to look with confidence, to the public for liberal patronage.

Policies from one to five years issued on the most reasonable terms. All Losses promptly adjusted and paid by F. WHITAKER, Agent.

EXCURSION TICKETS.—The price of the St. Paul excursion tickets will be $10,85, from Janesville and return, including meals and berth on the steamboat. They will be good for thirty days. Passengers can leave here Thursday, at 12:30 M. or 4:00 P. M.

CHURCH IMPROVEMENT.—Within the last two or three weeks such improvements have been made in the Baptist church of this city as will enable two hundred more persons to obtain seats in it than formerly. This improvement was demanded by the increasing attendance upon the service's there.

THE WEATHER.—So much complaint has been made about the almost intolerable heat of the past ten days, that it is a genuine satisfaction to record a decided change and improvement in it. Yesterday, although plenty warm enough for comfort or the wants of vegetation, was a bright, breezy day, allowing breathing without a spasmodic effort, and clearing off the rain from the crops without damage to them. The corner seems to have been turned and the heat spent its tropical fierceness. Give us the right kind of weather henceforth, and the earth will fairly groan with abundance and wealth.

MILWAUKEE STREET BRIDGE.—The work of replanking the sidewalk on Milwaukee street bridge is now progressing, and there is good reason to believe the bridge can be crossed hereafter by foot passengers without danger to life or limb. All of the large holes in the carriage way have been closed by the insertion of new plank, and there are now only two or three small ones, which will require our disinterested attention hereafter.

Charley Holt, of the Janesville *Gazette*, has been and gone and got a new Taylor press, and says he will have new type, &c. Go ahead, Charley, we glory in your spunk and good fortune. According to your reasons given on such occasions, we suppose "stealing" must be good down there.—*Madison Patriot.*

Pump, there's where you are mistaken. So strong is the healthful influence exercised upon everybody in Janesville that printers are strictly honest. We fully believe that even a "Madison devil" could be reformed, and induced to quit "stealing," if he dare try the experiment of a residence here.

P. S. We have one now in our office, who has worked in every printing office in Madison, and we speak from positive knowledge.

SUN STROKE.—Mrs. Ryan died in Madison Saturday from the effects of a sun stroke.

LIGHTNING.—During the shower Monday afternoon the lightning struck in two places in this city, (near Mosterey and near the field of Thomas Woolliscroft above the upper railroad bridge,) in each instance shivering a tree into small pieces. A building and several persons were in the vicinity of each tree, and the "humans" may consider themselves fortunate that the trees stood the brunt of the blows.

MOTION DENIED.—We learn that the supreme court yesterday denied the motion to vacate its former order staying all proceedings upon the order of the circuit court appointing a receiver, and for an injunction in the case of the Janesville Gas Company. We understand this decision continues the works in the possession of Jackman & Dimock, the lessees, until the decision of the appeal in the supreme court.

HOUR OF STARTING.—The time for the Beloit Sunday school excursionists to leave the church is a quarter before 9 o'clock, instead of a quarter after 9, as we stated yesterday.

SHOEBERE FLOUR.—Nicholas Kemp has just received two tons of the Shobiere flour—its well known reputation, to rank among the best country brands—a sack of which we have tried—and we can assure those who wish a good article can find it at Nicholas Kemp's.—*Kenosha Times.*

SPECIAL MEETING.—A special meeting of the common council was held Saturday evening, which was forgotten to be reported in yesterday morning's paper.

The meeting was a brief one, and the only important items of business done, was to refer the city assessment to the finance committee, with instructions to report to the regular meeting next Saturday evening the items of tax to be raised the present year, and the reduction of the license fee to sell spirituous liquors to $50.

Barnwell Rhett made a strong disunion oration on the 4th of July, in South Carolina, and George Sumner in Boston, on the same day, made one in which he denounced the Dred Scott decision. It is significant that while the administration organs violently condemn Sumner, they have not a word to say against Rhett.

The notorious Wm. H. English has, with his characteristic cunning, suggested himself for the speakership of the next house of representatives, by the publication of a card protesting that he is not a candidate for it.

COMMERCIAL.

JANESVILLE WHOLESALE MARKET.

Reported for The Janesville Daily Gazette by

Bump & Gray,

GRAIN AND PRODUCE DEALERS.

JANESVILLE, July 20, 1859.

With good receipts of grain yesterday, the market was more active than the day before, and prices rather firmer. There were about 500 bushels of wheat in which sold at 75@80c for fair to choice milling spring, and 45@65 stump-tail to fair No. 1. Corn came in freely and was active at 25@26c per 60 lbs, and in one or two instances 1-2@1c higher was paid. Oats were in fair demand at previous rates. Rye may be quoted considerably lower, as one or two farmers have tried to contract their crop, and the best offers were 50@55 per 60 lbs for new. Many have already cut their rye, and the probability is that the market will soon be well supplied. There are also many fields of wheat that will be harvested this week, and we hear no complaint of its being injured by rust or blight, and the yield and quality is considered good.

We make up prices as follows:

WHEAT—white winter, 90@1,10; fair to very choice milling spring, 75@90; stump-tail to fair No. 1, 45@65.

RYE—new, 50@55c per 60 lbs.

BARLEY—selling in small lots at 30 to 40c, per 50 lbs.

CORN—shelled, per 60 lbs, 25@26c; ear per 70 lbs, 25@30.

OATS—inactive at 25@30.

TIMOTHY SEED—quotable at 1,50@1,60 for 46 lbs, none coming forward.

POTATOES—dull at 50@60 for fair to choice.

BUTTER—plenty at 10@12c for good to choice roll.

EGGS—dull at 9@8½ per doz.

HIDES—green, 6@6,50; dry flint, 12@14c.

SHEEP PELTS—range from 40 to 1,25, each.

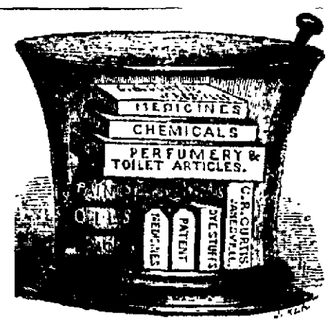

POULTRY—chickens 4@6. Turkeys 6@7c.

FLOUR—Spring, at retail, 2,25@2,50 per 100 lbs; winter 1,60.

WOOL—ranges from 20 to 40 for common to choice fine clean clips.

Our trade is heavy and we are constantly increasing it and daily adding customers by selling cheap. People often wonder where the crowd comes from, and why they constantly throng our store; but they readily see why we are always so full, after purchasing at our counter; they see that we sell cheap and give great bargains at the Honest One Price Store. We have a buyer constantly in New York attending the Great Auction and Closing-out Sales, and buying directly from importers and eastern manufactories—therefore, we buy cheap, enabling us to sell cheap to our customers. HOSTETTER'S STOMACH BITTERS.

In view of the fact that every member of the human family is more or less subject to some complaint, besides innumerable other ... in life, which, by the assistance of a ... knowledge or exercise of common sense, they may be able ... to regulate their habits of diet, and with the assistance of a good tonic, secure permanent health. In order to accomplish this desired object, the true course to pursue is certainly that which will produce a natural state of things at the least hazard of vital strength and life; for this end Dr. Hostetter has introduced to this country a preparation bearing his name, which is not a new medicine, but one that has been tried for years, giving satisfaction to all who have used it. The bitters operate powerfully upon the stomach, bowels and liver, restoring them to a healthy and vigorous action, and thus by the simple process of strengthening nature, enable the system to triumph over disease.

For the cure of Dyspepsia, Indigestion, Nausea, Flatulency, Loss of Appetite, or any Bilious Complaints, arising from a morbid inaction of the stomach or bowels, producing Cramps, Dysentery, Colic, Cholera Morbus, &c., these Bitters have no equal.

Diarrhœa, dysentery or flux, so generally contracted by new settlers, and caused principally by the change of water and diet, will be speedily regulated by a brief use of this preparation. Dyspepsia, a disease which is probably more prevalent, when taken in all its various forms, than any other, the cause of which may always be attributed to derangements of the digestive organs, can be cured without fail by using *HOSTETTER'S STOMACH BITTERS*, as per directions on the bottle. For this disease every physician will recommend Bitters of some kind, then why not use an article known to be infallible? Every country have their Bitters as a preventative of disease and strengthening of the system in general, and among them all there is not to be found a more healthy people than the Germans, from whom this preparation emanated, based upon scientific experiments which have tended to advance the destiny of this great preparation in the medical scale of science.

FEVER AND AGUE.—This trying and provoking disease, which fixes its relentless grasp on the body of man, reducing him to a mere shadow in a short space of time, and rendering him physically and mentally useless, can be defeated and driven from the body by the use of *HOSTETTER'S RENOWNED BITTERS.*—Further, any of the above stated diseases can not be contracted when exposed to any ordinary conditions producing them, if the Bitters are used as per directions. And as they neither create nausea nor offend the palate, and render unnecessary any change of diet or interruption to usual pursuits, but promotes sound sleep and healthy digestion, the complaint is thus removed as speedily as is consistent with the production of a thorough and permanent cure.

For persons in advanced years, who are suffering from an enfeebled constitution and infirm body, these Bitters are invaluable as a restorative of strength and vigor and need only be tried to be appreciated.—And to a mother while nursing, these Bitters are indispensable, especially where the mother's nourishment is inadequate to the demands of the child, consequently her strength must yield, and here it is where a good tonic, such as Hostetter's Stomach Bitters, is needed to impart temporary strength and vigor to the system.—Ladies should by all means try this remedy for all cases of debility, and before so doing, ask your physician, who, if he is acquainted with the virtue of the Bitters, will recommend their use in all cases of weakness.

CAUTION.—We caution the public against using any of the many imitations or counterfeits, but ask for *HOSTETTER'S Celebrated Stomach Bitters*, and see that each bottle has the words "Dr. J. Hostetter's Stomach Bitters" blown on the side of the bottle, and stamped on the metallic cap covering the cork, and observe that our autograph signature is on the label.

Combined Grinding Mill,

Three Valuable Machines in One!

THIS is a new invention, and one that is well worthy the attention of the public, the farming portion in particular; combining as it does, three valuable machines in very simple and portable form, and being afforded at a price that brings it within the reach of every one that has need of such a Mill.

The combination has been pronounced by those who have the mill in use to be one of the best ever made, and the great value of this combination will be readily seen when the fact is considered that each machine makes a necessity for the other. That, a Mill makes a necessity for a Sheller, a Sheller for a Mill, &c.

Being adapted to the use of the farmer by horse power, as a farm implement it is scarcely less an equal in value.

It is also adapted to steam, water or wind power—It is capable of grinding from five to ten bushels per hour, requiring from two to three horse power, according to the quantity and quality of the work done.

It grinds sufficiently fine for family use making a superior quality of meal, having the meal run lively, white, and ... —Every one will be astonished at the difference in this respect in favor of the meal made in this mill compared with that made in a stone mill. They have only to make the trial to be convinced.

It will shell fifty to sixty bushels per hour, and will grind and shell at the same time.

It will crush fifteen to twenty bushels of corn and cob per hour, and will crush and grind at the same time.

It is light and portable, weighing about 500 lbs., and occupying a space of less than two by three feet.

The grinding surfaces are very durable, being made of iron as hard as hardened cast steel, and when worn out can be replaced without the aid of a machinist, at the trifling cost of *One Dollar and Fifty cents*, thus overcoming entirely the great objection to Iron Mills. Particular attention is called to this feature in the mill as the difficulty of replacing grinding surfaces in iron mills, when worn out, is an objection that has been urged with great force against them, and has had the effect to prevent thousands from purchasing, who otherwise would be glad to do so. That objection is entirely done away with in this mill.

Millers would do well to examine this mill, there being no doubt that they will find it for their interest to adopt it for a feed mill, as the grinding surfaces are replaced at a much less cost than is required to keep a stone mill in order, to say nothing of the great saving in power and cost of mill.

An examination of this mill is most earnestly solicited, as it may be seen in operation to be fully understood and appreciated.

Cards of direction are attached to each mill, which will enable any one to set up and operate them without further instructions.

ALBANY COLLEGE OF HEALTH!

ESTABLISHED 1838.

HERRICK'S SUGAR COATED PILL.
Children Cry for them.

This remarkable American remedy is carrying the world by storm. Over five millions of boxes are sold annually. Composed entirely of flowers, roots, balsams and extracts, their effect on the human system is pleasing, satisfactory and successful. Acting directly on the *blood*, glands, solids and fluids of the body, they are attended with the happiest effect. In sudden attacks of disease one or two doses always cure. In old standing cases of sickness, small doses repeated frequently so cleanse the system, that good health is the result. No change in employment or diet is necessary. They never cause soreness, swelled joints, aching limbs, etc., as do many other kinds. They are warranted to give satisfaction, or the price will be refunded. They are considered cheaper, safer, prettier, and in all respects superior to any purgative pill in the world. The discovery of coating a pill with sugar originated with Dr. Herrick. CITY OF JANESVILLE.

Thursday Morning, July 21, 1859.

Republican State Convention.

A Republican State Convention will be held at the City of Madison, in the Assembly Hall of the Capitol, on Wednesday, the 31st day of August next, at 12 o'clock M., for the purpose of nominating candidates for State officers to be supported by the party at the ensuing general election; and to transact any other business that may properly come before it.

As the subject of selecting delegates to the next National Convention may be entertained and acted upon by the Convention, it is suggested that the people in their primary meetings, and the district conventions, make such expression as will intimate to their delegates and the State Convention, the general sentiment of the state on that subject.

Each Assembly District will be entitled to two delegates in the convention.

It is recommended that district conventions for the election of delegates be held throughout the state, on or before the 20th day of August, and that committees make early calls for that purpose; and it is especially urged that every district be duly represented in the convention.

The Crops.

Within the past few days we have made inquiries of all whom we supposed had any knowledge of the crops in this county, and have received the uniform answer that the prospect is of the most encouraging character. The excessive heat and rains of last week did no material damage, while the favorable turn in the weather this week is all that could be asked or desired. In some instances we hear that the cutting has commenced, and a week more time will set hundreds of reapers at work. The chief complaint we hear is that the grain is thin in some localities, but all admit, as the crops now stand, the quality will be excellent, and the yield remunerative where it is not abundant.

Corn had an almost marvelous growth during the hot season, and seems to have been pushed forward to just the limit where other crops could bear it.

If no unfavorable weather intervenes in the coming fortnight, and injury from other causes is averted, "Old Rock" will be a granary filled to repletion with as choice a quality of products as ever gladden man, or ministered to his household wants.

Perils of the Wheat Trade.

The Chicago Tribune gives a marked illustration of the uncertainties of speculation, in the recent decline of the wheat market. In Chicago there was a decline of seventy-four cents per bushel in sixty-two days! At Milwaukee the decline has been equally great. On the 16th of May last, No. 1 spring sold at about $1.43; while on Saturday last it sold at 70c.

The Tribune says "this altogether outstrips the decline of 1857, which has hitherto been quoted as "the sudden decline." In that year standard spring wheat rose on the 31 of July to $1.39 f. o. b., and fell to 56c in store on the 24th of November following—a heavier but a more gradual fall. The result of the recent decline has been very disastrous to grain dealers and speculators all along the lake. Commission merchants, bankers, and nearly all concerned have suffered more or less. True a few have come out of the struggle unscathed, but it has been to the sacrifice of the many. The losses at Chicago, Milwaukee, Racine, and other points cannot be less than half a million dollars!"

LEGAL DECISION.—The decision of Judge Noggle which we publish this morning is one of general interest and importance.—The desire expressed by many to know its exact purport has induced Judge N. to furnish it for publication.

A NEW VARIETY OF SEED WHEAT.—The Kenosha Times notices a new variety of winter wheat in the possession of Mr. J. H. Kimball, of that city. It is called the French White, and was brought from the mountainous parts of France, where the climate is similar to our own. The berry is large, white and plump, and if it could be grown here would be a great improvement upon the spring wheat that our farmers now mostly cultivate. We think the trial would be well worth making. Mr. Gould of the Kenosha County Bank has a quantity of this wheat to dispose of for seed.

KANSAS CONVENTION.—The following despatch is the latest information from the Kansas constitutional convention:

ST. LOUIS, July 19.

A special despatch to the Bulletin says that a bill of rights before the Kansas convention proposes that no distinction be made between aliens and citizens in relation to the possession of property. Also that no slavery be allowed in the state.

It has been decided by a majority of the convention in favor of instructing the supreme judges to disregard the fugitive slave law.

Provisions are made for the homestead law, embracing one hundred and sixty acres and improvements, not exceeding $2,000.

KANSAS CONSTITUTIONAL CONVENTION.—The convention has spent most of to day in committee of the whole, having under consideration reports of the committees on legislative department, on judicial, on education and public institutions. The article establishing common schools as reported from the committee, does not prohibit negroes from receiving the full benefit of the schools. A proposition to insert the word "white," so as to effect that object was laid on the table. Another amendment of the same virtue was pending when the convention adjourned. A lengthy discussion was had on that point. A provision giving children of African descent an equitable proportion of the common school fund of state was stricken out. The committee, to which was referred the memorial of the ladies of Kansas, praying that the constitution be framed so as to give females the right of suffrage, reported that in the opinion of the committee, woman kind would be more profitably employed in attending properly to their domestic duties, at the same time have sufficient cares to engross their whole attention.

A case has been argued before the superior court of Chicago, in which Eunice Chapman is plaintiff and Wm. B. Ogden defendant, involving the title to real estate amounting in value to half a million of dollars. The case is in the hands of the judge, whose decision is naturally looked for with interest.

In Circuit Court.

Samuel Williams against James M. Burgess and others.

This is an action commenced under the law of 1858 to foreclose a mortgage. The questions raised by the order to show cause so often arise, and so many different opinions are entertained by the different attorneys in this circuit, that I deem it proper to place my decision, as far as I conveniently can, in the possession of those who are interested in it. The matter has been often and ably discussed by the ablest of the profession in this circuit, and I might add, in the state. I have discovered no good reason for changing materially my first decision in relation to the positive and absolute repeal of laws giving a remedy during the pendency of an action, where the repealing act contains no saving clause or provision continuing the remedy as given by the law repealed.

The question to be determined is, first, is the plaintiff entitled to judgment in this case at this term of the court.

This action was commenced under the law of 1858 to foreclose a mortgage. The defendants by that law were entitled to six months after service of the summons within which to appear and answer the complaint, and by the terms of that law no judgment could be rendered against a defendant until the expiration of such time.

The supreme court has already held substantially that all summonses under that law must be made returnable in six months, instead of twenty days; or that such summons should truly notify the defendant that he must appear and answer within six months from the service of the summons, or judgment would be rendered against him, &c.

This decision of the supreme court is doubtless correct, and the decisions of the circuit courts were incorrect. Our judicial theory at this time, as well as our legal system as it has existed since 1856, forbids the use of fiction or falsehood. It has professedly abolished in theory and in practice all falsehood and deception, and this change in the laws of this state must, if properly administered, bring out the truth, officially as well as professionally, and judicially requires that the court, its officers, and the parties, shall under all circumstances state the truth. The law, in spirit and in letter, protects parties from fraud and deception. It will not and should not tolerate dishonesty or unfairness in legal proceedings, or in courts of justice. This is highly commendable, and such principles, when found in the law, should be faithfully, honestly and firmly administered.

This, doubtless, is the view taken of our system by the supreme court in giving a true and consistent construction to the law of 1858, in declaring that under that law the summons returnable in six months notifying the defendant to answer in six months, was legal and proper; clearly indicating that although the law did not give the process, that the court might do so, and that in this case it was the duty of the court to do so. This is in harmony with our theory of government, as has long been well established. It is the duty of the legislature to furnish the law, and the duty of the court to provide the process. If the legislature furnishes the substance only, the court must provide the form. Consequently when the law of 1858 was enacted, providing a special remedy upon the service of a summons six months, without adopting the manner or form of enforcing such remedy, it was clearly the duty of the courts to furnish such forms for carrying the remedy into effect as might be thought legal and proper, and in harmony with the letter and spirit of the law. Any other form than such as the law clearly indicates would and must be void from the beginning.

In relation to this law no form is contained in the act, and none whatever existed before which could in truth be applicable thereto. It was, therefore, clearly the duty of the court to provide the forms for carrying the law into effect, according to its spirit and aim; and such process must truly inform the defendant, not only what he is required to respond to, but how and where he shall do so, and most assuredly it is irregular to notify the defendant to appear in twenty days after service, when the law provides that he shall have six months to appear and answer. Such a command does gross violence to the letter and spirit of the law; it deceives and misleads defendants who are not learned in the law.

We must therefore decide and determine that a summons returnable in twenty days is irregular and voidable at least, being clearly in contravention of the provisions of the act relating to foreclosing mortgages.

In this case the remaining question to be determined is, what becomes of those cases commenced under the law of 1858 relating to foreclosure of mortgages, in which the service had not been perfected at the time of the repeal of said act—at the time the law of 1859, providing a different remedy, or a different service in such cases, went into effect? It is contended by some that the act of 1858 is still in force for the purposes of perfecting judgment in all cases under that law; by others that the repeal of the law of 1858 restores or revives the code of 1856, giving only twenty days to answer in such cases.

I know of no law or precedent sustaining either one of these opinions. The unqualified repeal of a law affecting the remedy, ends its force, effect and operation, and the repeal of such repealing act never can revive a repealed act. To extend the operation of a repealed law beyond the repeal, or to revive a law previously repealed, requires a special enactment in all cases, and never so operates by implication.

The passage, therefore, of the act of 1859, which took place on the second day of April, 1859, unqualifiedly repealed the law of 1858, and also absolutely repealed all other acts and parts of acts which in any manner contravene the provisions of that act, without a saving, reviving or extending clause. Where then did the repeal of the law of 1858 leave the cases commenced under that law, in which the time for answer had not expired? They must of necessity stand where the law left them; and there, in my opinion, all such cases must stand until some other legal remedy can be applied. That remedy, in my opinion, is first to obtain from the court a special order in each case, or a general order applicable to all cases commenced and served before the law of 1858 was repealed, requiring the defendant or defendants to appear and answer, &c., the complaint on file in such time as the court may in its discretion fix, which order should be duly served on the defendants some reasonable time before the time for answering as fixed by such order. Or, second, by an alias summons issued by order of the court, giving three months time according to the law of 1859.

I have no doubt that in all cases where the law fails to furnish complete forms for fully perfecting a remedy, that the court possesses the power to provide the manner and form, but the defendant must be properly brought in under such form or in such manner as the court shall have first directed.

Unless one or the other of the plans here suggested will relieve the plaintiff, his case must of necessity be legislated out of court.

I am of the opinion that either one of the modes proposed will enable the plaintiff to prosecute his case to judgment without commencing a new suit, and that no other proceeding can now be adopted by the court which can legally carry on to judgment those cases in which the service had not been completed prior to the repeal of the laws of 1858. This opinion may not be sustained. I am fully aware of the fact that it is approved or disapproved by counsellors learned in the law, just as their professional interest seems to dictate, and the growing disposition to depart from and disregard well established principles and forms in judicial proceedings may often get the better of the court; but it is to be hoped that the supreme court will honorably adhere to the well established rules and precedents in all cases, rather than depart therefrom by opening a field of judicial legislation, that must of necessity do great violence to our judicial system. In support of this decision I will refer the profession to a few authorities.

Bouvier in his Institutes, 1st vol., page 14, says: "Inchoate rights generally, derived from a statute are lost by its repeal, unless expressly excepted." The same doctrine is also held in Butler vs. Palum, 1 Hill, p. 324.

It is often strangely contended that the legislature by the enactment of the law of 1859 could not take away or interfere with "vested rights." Of course this is true, abstractly.

The legislature cannot deprive a party of real property in which he has either a vested or a contingent right. But what has this doctrine to do with the case at bar?—What "right" had "vested" at the time of the repeal of the law of 1858? None whatever, not even the right to have a judgment.

Notwithstanding the well-settled doctrine that the legislature cannot take away "vested rights," still it cannot be denied that there are "a large class of cases where, by statute changing remedies, repealing laws, and retroactive enactments, positive and absolute rights are taken away. Thus, in the case of a law abolishing arrest and imprisonment for debt. The remedy is in the power of the legislature." See Sedgwick on Stat. and Const. Law, page 17.

The law of 1859 is in no sense a retroactive law. It takes up all cases pending and not ready for judgment under the law of 1858, just where the repealed law left them, and affords a complete remedy for prosecuting the cause to judgment, according to the provisions of the repealing act.

This is simply changing the remedy by an absolute repeal and abandonment of the remedy given by the law of 1858, by substituting and accepting in the place of it the remedy given by the law of 1859. Of course this very much prolongs those cases in which summons had been served nearly six months, but at the same time it very much shortens the proceedings in all those cases in which the six months summons had but recently been served. For a clear and just understanding of this subject, and of the effect produced by the repeal of a remedial statute, I earnestly request a careful examination of Sedgwick on Stat. and Const. Law, chap. 5, and particularly pages 188 to 221.

Again Sedgwick says in same book, page 679-680: "We have also already seen that in some cases the legislature is competent, by the operation of a repealing act, to put an end to pending proceedings, and to take away rights under existing laws, as that of a mortgage debtor to redeem, and to put an end to pending suits when a good right of action or a valid demand existed. Ante, page 131." See also the People vs. Livingston, 6 Wen. p. 527, and Sedgwick on Stat. and Const. Law, pages 683 to 691.

These questions are purely questions of construction, and must of necessity remain open under our system for at least twenty years, during which time frequent changes in members as well as decisions of our supreme court may take place. Counsellors therefore, as well as courts, in justice to themselves, and in justice to parties interested and parties to become interested in these proceedings hereafter, should not hesitate to adopt that theory and practice which will certainly be sustained, and which is a sure protection to all.

ST. LOUIS, July 16.

KANSAS CONSTITUTIONAL CONVENTION.—A special despatch to the Bulletin says that after a lengthy discussion, disclosing much wire-pulling and maneuvring by both parties, the Kansas convention has to day fixed as the northern boundary of the state, the original Nebraska line.

DAVENPORT, Iowa, July, 19.

There have been seven cases of coup de soleil reported in this vicinity within the past three days, six of which proved fatal. The six fat l cases were Germans, and the one that recovered was an Irishman; one was a German woman. The weather here is intensely hot, and has been so for a week past.

Ex-Supreme Court Judge Samuel Crawford made a demand on the state for six months' salary unpaid, got from the secretary of state a recognition of his claim, and a warrant on the treasurer for the amount. The controller however refused to countersign the warrant, and the Treasurer refused to pay it without such countersign, which blocked the wheels of the achievement. Thereon the ex judge demands from the supreme court a writ compelling the state treasurer to disregard the authority of the controller and pay the money. The question involves the constitutionality of the controller's office, which is denied by some. The claim of the ex judge arises in this wise: His place was taken by Cole, his successor, in June, at the expiration of the two year's term, which the law constituting the supreme court, provided for one of the judges, and which was drawn by Crawford. Subsequently the judge on examination of the law, concluded that the term of the judges commenced on the first of January, instead of June, which conclusion necessarily involved the fact that Judge Cole had taken his seat six months before he could qualify under the law, and that Judge Crawford might have held his seat six months longer under that provision of the constitution which says he shall serve until his successor is elected and qualified. It is for this six months that he might have served, that Judge Crawford now demands pay. That he has no equitable claim to it is very manifest, and the controller does right in refusing to pay it, until it is found out whether any law will compel it.

Andrew Proudfit also denies the authority of the controller, and has instituted a suit in the supreme court, to compel the treasurer to pay Calkins & Webb several thousand dollars allowed by the secretary of state, but which the controller refuses to certify to.—Free Dem.

JANESVILLE WHOLESALE MARKET.

Reported for the Janesville Daily Gazette by
Rump & Gray,
GRAIN AND PRODUCE DEALERS.

JANESVILLE, July 21, 1859.

Receipts of grain were on even at lighter yesterday than the day before, and the market was less active though prices were unchanged. We look for a very dull market during the next four weeks, as most if not all the farmers will be busily engaged securing their wheat, which is ripening rapidly. We hear of a number that have already commenced cutting their spring wheat, and all speak very favorably of the quality and yield. The club variety seems to be the earliest this season, and it is this the farmers have commenced harvesting. Oats and Barley also look as well as could be wished, and Corn never looked better at this season of the year, and finally all kinds of grain, as far as heard from, looks first-rate.

We continue quotations the same as on Tuesday.

We make up prices as follows:

WHEAT—white winter, 90a1,10; fair to very choice milling spring, 75a90; stump-tail to fair No. 1, 45a65.

BARLEY—selling in small lots at 35 to 40c, per 50 lbs.

David Jeffers against William B Jones and Ellen Jones.

IN pursuance and by virtue of the judgment of foreclosure and sale, rendered in the above entitled action on the 21st day of December, 1858, in favor of the above named plaintiff and against the above named defendants, I shall offer for sale, and sell at public auction to the highest bidder, at the front door of the court house in the city of Janesville, in said county of Rock, on the 20th day of July, 1859, at the hour of ten o'clock in the forenoon of that day, the following described mortgaged premises, to-wit: All that parcel, tract or lot of land, situate in the city of Janesville, Rock county, state of Wisconsin, and described as east part of part of lot seven in section 30, in range 12, town 3, containing one acre of land, and described and bounded as follows: commencing at a stake set in the centre of the Racine road, near the south east corner of land owned by Joseph Baker, thence running a southerly course along the west line of John P. Dickson's partition fence twenty rods, thence extending west on the south and west so as to contain one acre of land. The land hereby intended to be described being the east half of same land conveyed by John Williams and wife to E D Murdock, being one half an acre of land, or so much or such part thereof as shall be sufficient to satisfy the amount adjudged to be due the pl'ff. Said sale will be made to satisfy $151 23 and with interest, and in addition thereto the costs of foreclosure and sale.—Dated January 14, 1859.
ROBERT T. LAWTON, Sheriff Rock county.

CLAIRVOYANCE!

Dr. LATHROP, of NEW YORK,

WOULD respectfully inform the inhabitants of Janesville and vicinity, that he has opened an office at his residence, for the purpose of treating diseases on the Clairvoyant principle. Through precision, I am enabled to cure many cases that are beyond the reach of medicines. I have had 12 years experience in this manner of treating diseases attended with great success in New York and Syracuse. I had a number of years medical practice before I became clairvoyant. Invalids suffering from old chronic difficulties, will do well to give me a call. Acute diseases treated with new remedies discovered while in the superior state; these are especially applicable in fevers and sudden billious attacks, which readily yield to the harmonizing influence of these medicines.

☞ Residence on Bluff street, near Jackson. First house west and nearly opposite the Episcopal church.

THE above are First Class, justly popular, and prompt paying Companies. They invite investigation into their condition and solicit business entirely upon their real merits. In point of solvency and reliability and honorable dealing, they have but few equals, and no superiors. They are founded upon the very best securities in the world—first class bonds and mortgages upon property in New York and Brooklyn—securities that have not, for the past ten years, depreciated below par, and are every way more reliable and permanent than railroad, bank, and other stocks, which are subject to the fluctuations of the market, and liable, in times of panic, as the experience of the past teaches, to become almost, if not entirely valueless. And while there are Companies entering the field of competition, well calculated to mislead by publishing artful and colorable statements of their condition, and without a cash surplus on hand sufficient to reinsure their outstanding risks, the above named companies always have and keep over and above their capital twice the amount, and in most instances five times, needed for the reinsurance of all their risks. With such a foundation, and with such a condition, they claim the right, to look with confidence, to the public for liberal patronage.

Policies from one to five years issued on the most reasonable terms. All Losses promptly adjusted and paid by F. WHITAKER, Agent.

RECENTLY of New York, may be consulted at his Room, Hyatt House, Janesville, every month, in regard to all diseases, which he treats with unprecedented success. He cures chronic cases of diseases, which have been pronounced incurable by the medical faculty generally, such as nervousness and neuralgic affections, diseases of women, all forms of scrofula, dyspepsia, constipation, skin diseases, cancerous and tuberculous affections, including pulmonary consumption, rheumatism, paralysis, epilepsy, asthma, salt rheum, remittent and intermittent fevers, the diseases of children, &c. All the perils and most of the sufferings of childbirth are removed by early consultation.

Remember, that the Doctor does not promise to cure all stages of diseases. While all diseases are curable, if taken in season, all stages are not. Your case may be curable this week, not next—to-day, not to-morrow hence the danger of delay.

LOCAL DEPARTMENT.

SONS OF MALTA.—At the meeting of this order Tuesday evening, it was resolved to hold an adjourned meeting, at the usual place of assembling, on Friday evening, July 22d.

By order G. C.

SUNDAY SCHOOL EXCURSION.—Yesterday morning the Baptist Sabbath school left on their excursion to Beloit. Nine passenger cars on the Galena and Chicago road were filled, and probably about 600 persons, pupils, teachers, parents and friends, were on board. The day was pleasant, and every countenance was a pleased and happy one.

At four o'clock, P. M, the train returned, bringing back the happy throng without the occurrence of anything to interrupt the enjoyment of the excursion. Conductors Mitchell and Powell were very attentive to the comfort of those under their charge, and to their care, with the aid of Mr. Abeel, the agent of the road, much of the pleasure of the occasion is attributable.

We expect a full report of the proceedings for publication to-morrow.

NEEDS ATTENTION.—While the Milwaukee street bridge is being put in repair, the Pleasant street bridge needs attention. Monday evening one of the best horses in the city got his foot into a hole in the bridge, and the lucky circumstance of drawing his leg out straight only saved a heavy verdict for costs and damages against the city. Will not the bridge committee give heed to this matter?

SONS OF MALTA.—The noon train on the Chicago and Northwestern railway to-day will bring the Chicago and eastern excursionists to St. Paul and Minnehaha Falls. It is expected that a large portion of them, at least, will remain until the departure of the afternoon train, and make a visit to our people and city. The arrangements for this excursion are more extensive than any heretofore made, and a larger number of excursionists are expected than ever attended a pleasure party. We learn that the steamer Ben. Campbell will start from Davenport with a full load, to meet those who take the route this way.

It is probable that a large number of our citizens will be at the depot to witness the arrival of "the brethren," and greet such as shall determine to make a short tarry among us.

☞ Dr. Miner, dentist in Milwaukee, will be at the Hyatt House, to day, and remain for a few days, to attend to any calls in his profession.

THE RACINE & MISSISSIPPI R R.—The Freeport Journal says that all that energy and money can do to secure the completion of this road to Freeport, in time for the State Fair, is being done. The work is progressing finely all along the route.

PROVIDENTIAL ESCAPE.—During the celebration of the "Fourth" at Belleville, Dane county, some young men loaded a large cannon to the muzzle with wet paper, grass, &c., and despite of the remonstrance of older people, applied the slow match. The gun was blown to atoms, and notwithstanding the great crowd in the vicinity no one was hurt. One piece of metal weighing sixty pounds entered the side of the Belleville House, another weighing eighty was thrown forty rods. A little girl standing at the window of the same house had a piece pass within a few inches of her head. Altogether it may be set down as a miraculous escape all round.

☞ The pews in the M. E. Church will be rented on Monday, the 25th inst., at 2 o'clock P. M. One-fourth of the rent will be required in advance, the balance in 3, 6 and 9 months.

July 20th, 1859. jy21dtf

☞ The person who took a black frock coat out of the composing room of this office, will confer a favor by returning it to the owner.—If said person will convince the rightful owner that he is in the greatest need of it, he shall have it, otherwise, the owner himself would like a little more wear out of it yet, for poor as he is he had rather give it away than labor under the conviction that some fellow mortal had so far degraded himself as to steal from a printer!

CHESS PLAYERS ATTENTION.—There will be a meeting of the Janesville Chess Club, for the election of officers and such other business as may be necessary, this evening, at the office of E. D. Tallman.

ALL SORTS OF PARAGRAPHS.

ACCIDENT.—Thirteen persons were wounded more or less seriously at St. Pie, C. W., on St. John's day, by the explosion of a fifty-six pound weight, which had been loaded, plugged and fired as a cannon.

The negro minstrel, Mr. Thomas Coleman, died in Newark, N. J., on the evening of the 5th of July, in his 33d year. He was born in Boston, Mass., Aug. 9, 1826, and for more than twenty years has been among the most prominent delineators of the Ethiopean character.—He was a pupil of John W. Smith, the original "Jim along Josey," and was known years ago by the cognomen of "Pleasley Coleman."

Two Indians at Troy, N. Y., started with the thermometer at 90 in the shade, to perform a matched foot race of 100 miles within thirteen hours. One gave out on the 28th mile, leaving his rival to accomplish the feat alone. He ran fifty miles in seven hours and twenty four minutes, but on the sixty-first mile, at which time he had used up nine hours, twenty nine minutes and thirty-nine seconds, he gave out. No such distance was ever before accomplished in the same time on foot.

HARVESTING SPRING WHEAT.—We learn that at several points along the line of the Chicago and Galena, and the Chicago, Burlington and Quincy Railroads, the farmers have commenced to harvest spring wheat. Last year it was nearly a month later before the crop was cut.—*Chicago Tribune.*

REVOLUTIONARY BLOOD.—The name of the gentleman who is reported to have recently fought a duel with O. Jennings Wise, is P. H. Aylett. He is a grandson of Patrick Henry, whose name he bears, and is now employed as a writer in the office of the Richmond Examiner.

The N. Y. Express says Mr. Newcomb, Cleveland has sold his judgment against the La Crosse road to Mr. Selah Chamberlain for $25,000 in cash and the balance in the notes of two citizens of Milwaukee secured by $400,000 of Minnesota bonds as collateral.

STARVING THEM OUT.—There is a good story told of Meolraj, the native East India general. His followers took from the English a lot of hermetically sealed provisions in tin cases, and found nothing from his guns for three days but fresh lobsters, pickled salmon, and other delicacies, supplying the British camp, which he was trying to starve into a surrender, with a shower of the freshest English provisions.
